GA-BAT-KIT

# BATTERY CABLE BUILD ASSORTMENT KIT

Streamline your projects with Great American Inc.'s latest innovation: the Battery Cable Build Assortment PACKOUT™ Kit. Designed for professionals, this 83-piece kit includes 20 different part numbers to handle a wide range of battery cable applications. Inside, you'll find copper lugs sized from 6Ga to 4/0, tin-plated copper splice connectors for corrosion resistance, and heat shrink tubes for durable, weatherproof connections. Each component is crafted for maximum conductivity and reliability, making this kit essential for any serious electrician or mechanic. The compact PACKOUT™ design keeps everything organized and portable, so you're always ready on the job.
